Continuation Sheet (PTOL-303) 009/909,843

Application No.

Continuation of 2. NOTE: Claim 1 contains a new limitation of "stacking of said trays without the lower surface of the first tray impingin upon the coverslips at the upper openings of the sealable wells of the second tray stacked below the first tray and to allow protein crystallization to take place in the second tray without disruption to the coverslips" in the last 4 lines. The new limitation would require further search and consideration. Also, the scope of the claimed has been changed from at least one sealable well, which can be interpreted to read on one well, to a plurality of wells, which can not be interpreted as a single well.

Continuation of 5, does NOT place the application in condition for allowance because: the arguments are directed to the amendment, which was not entered.
